**Reply to para 6 of counter: Duly filled Tariff Forms as sought by UPPCL are attached with the Rejoinder and details are as below:**

**(a) Form 9Bi – Details of Assets Decapitalised during the year**

1. The Petitioner hereby submits the relevant Forms in accordance with the relevant provisions of the UPERC Tariff Regulations as applicable therein.

  
#12

  
Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14th Floor, Shakti Bhawan Extn.  
Lucknow-226001

**Reply to para 8 to 13 of counter: Additional Capitalization Claims of UPRVUNL**

2. UPRVUNL hereby submits that the Second revised scheme was accorded approval of the Government of Uttar Pradesh vide letter no. 941/24-1-2020-3485/2009 dated 15<sup>th</sup> July 2020. The second revised estimated cost of the Harduaganj Extension Stage II project was estimated at Rs 6011.83 Crores.
3. Further submits that the total expenditure incurred upto COD i.e as on 8<sup>th</sup> February 2022 is to the tune of Rs. 5,771.94 crore and the statutory auditor certificate in this regard has already been submitted before Hon'ble Commission along with the Petition.
4. Based on provisional expenditure till 8<sup>th</sup> February 2022, UPRVUNL has submitted the Annual Revenue Requirement for determination of Provisional Tariff before the Hon'ble Commission and balance project cost has been estimated for expenditure in FY 2022-23 and FY 2023-24.
5. In addition to the above UPRVUNL submits that additional capital expenditure for Rs. 167.92 crore in FY 2022-23 and Rs. 71.97 Crore in FY 2023-24 is the part of Revised estimated capital cost as approved by Government of Uttar Pradesh in second revised scheme.

Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14<sup>th</sup> Floor, Shakti Bhawan Extn.  
Lucknow-226001

6. UPRVUNL has already submitted the Board approval, ETF approval and other supporting documents in its MYT Petition towards the projected expenses. It is to underscore that projected expenditure have pass muster under vigorous scrutiny of high level government authorities at various level while getting approval from ETF keeping need and requirement of the project.
7. Further, UPRVUNL hereby submits that the Uttar Pradesh Government, subsequent to issuance of Tariff Order for FY 2014-15 to FY 2018-19, issued an Order vide letter no. 1714/24-1-2017-1714(B.)/2017 dated 31.07.2017 to UPRVUNL approving UPRVUNL to maintain provision of Return on Equity at 2% from FY 2017-18 onwards so as to support UPPCL until such time UPPCL achieves turn around in accordance to the UDAY Scheme. Considering the fact that UPPCL and UPRVUNL are sister concerns. Therefore, considering the plight of UPPCL and the poor health of its balance sheet to provide some breathing space to UPPCL the provision of 2% Return on Equity for UPRVUNL Generating Stations was implemented.
8. Accordingly, the Petitioner has billed the Fixed Cost keeping the RoE at 2% form FY 2017-18 onwards to UPPCL and the rest of 13.5% has been foregone. In addition to above there are substantial outstanding receivable from UPPCL thereby causing financial stress on the cash flow of the company.

  
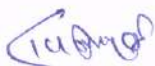

Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14th Floor, Shakti Bhawan Extn.  
Lucknow-226001

9. As such a timely and adequate resources in hand shall be helpful in successfully executing the above projected additional capital expenditure.
10. In view of the above Petitioner hereby prays Hon'ble Commission to kindly consider the projected additional capital expenditure and allow the same to UPRVUNL at this stage.

**Reply to para 14 to 17 of counter: Means of Finance**

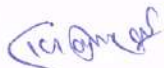

11. Hon'ble Commission in its order dated 5<sup>th</sup> September 2022 and 3<sup>rd</sup> October 2022 had prescribed a normative approach of financing of the capital expenditure in the ratio of 70% debt and 30% equity in line with the Tariff Regulations. Further the allowable depreciation had been considered as normative loan repayment.
12. In order to maintain consistency in approach, the Petitioner has considered the aforementioned philosophy and calculated the normative debt and normative equity. The opening values of accumulated depreciation, normative loan and normative equity as on 1.4.2019 has been adopted from the true-up order for FY 2014-15 to FY 2018-19.
13. Further, UPRVUNL hereby submits that Actual Equity and Debt infusion will be claimed by UPRVUNL at the time of Truing-up of the TPS within the provisions of the UPERC Regulations.

  
Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14th Floor, Shakti Bhawan Extn.  
Lucknow-226001

**Reply to para 18 to 20 of counter: Depreciation**

14. UPRVUNL has claimed depreciation in accordance with Regulation 24(iii) of the UPERC (Terms and Conditions of Generation Tariff) Regulations 2019.
15. The Petitioner has provided the asset class wise list of gross fixed assets in Form 11 of the tariff formats submitted along with petition. Accordingly, the Petitioner has calculated the eligible depreciation based on the rates prescribed in the tariff regulations.
16. The rates of depreciation prescribed by the Hon'ble Commission in Appendix 3 of the Generation Tariff Regulations prescribe different depreciation rates for different assets. In such circumstances it would only be fit to consider station wise depreciation calculated at the rates prescribed in Appendix 3 for different asset classes and not at the average rate.
17. While calculating the allowable depreciation, the petitioner has considered the residual life of the asset as 10% and depreciation has been considered up to maximum of 90% of the historical capital cost of the asset being in line with the provisions of the Generation Regulations, 2019.

  
Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14th Floor, Shakti Bhawan Extn.  
Lucknow-226001

18. Further, UPRVUNL hereby submits that depreciation as per above submission may please be allowed.

**Reply to para 21 to 23 of counter: Interest on loan**

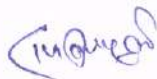

19. Regulation 24(ii) of the UPERC Generation Regulations, 2019 provide the basis for computation of Interest on loan capital. It states that the Interest on loan capital shall be computed on the loans arrived at in the manner indicated in these Regulation i.e in the approved Debt: Equity ratio. The repayment for any year during the Tariff Period shall be deemed to be equal to the depreciation allowed for that Year. In case of decapitalization of assets, the repayment shall be adjusted by taking into account cumulative repayment on a pro rata basis and the adjustment should not exceed cumulative depreciation recovered up to the date of decapitalization of such asset.
20. Further, it is reiterated that the Petitioner has considered a normative tariff approach with a gearing of 70:30 as considered by the Hon'ble Commission in its True-up Order dated 5th September 2022 and 3rd October 2022. In this approach, 70% of the capital expenditure undertaken in any year has been considered to be financed through loan and balance 30% has been considered to be funded through equity contributions.
21. Further, UPRVUNL hereby submits that interest on loan as per above submission may please be allowed.

  
Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14th Floor, Shakti Bhawan Extn.  
Lucknow-226001

**Reply to para 24 to 25 of counter: Return on Equity**

22. Regulation 24(i) of the UPERC Generation Regulations, 2019 provides the base for determination of Return on Equity for the purpose of computation of fixed charges. The said regulations state that the Return on equity shall be computed in rupee terms on the equity base determined in accordance with this Regulation @15.0% per annum.
23. It is to humbly to bring to the attention of the Hon'ble Commission that based on the Government Order dated 31st July 2017 and subsequent adoption of the same by Board of Directors on 9th April 2018 of the Petitioner, the Petitioner would continue to bill the beneficiary considering the RoE at 2% Or at rate as decided by the BoD from time to time but within the ceiling of 15%.
24. Further, The Commission while disposing of True-up Petitions of UPRVUNL for previous control period FY 2014-15 to FY 2018-19 has allowed RoE as per the Regulations irrespective of the RoE considered for billing. True-up Orders have attained finality. As such Petitioner is seeking same dispensation for instant Petition too.
25. It is therefore submitted that the Hon'ble Commission may allow RoE as per the Generation Tariff Regulation 2019.

  
Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14th floor, Shakti Bhawan Extn.  
Lucknow-226001

**Reply to para 26 to 27 of counter: Interest on Working Capital (IOWC)**

26. Hon'ble Commission has provided the following norms for the purpose of calculating of the normative working capital for coal based generating stations:

***“(v) Interest on Working Capital***

*(a) Working capital shall be allowed on a normative basis and for coal based generating stations shall include:*

*(i) Cost of coal for 15 days for pit-head generating stations and 30 days for non-pit-head generating stations, corresponding to the **target availability**;*

*(ii) Cost of coal for 30 days for generation corresponding to the **target availability**.*

*(iii) Cost of secondary fuel oil for two months corresponding to the **target availability** and in case of use of more than one secondary fuel oil, cost of fuel oil stock for the main secondary fuel oil;*

*(iv) Operation and Maintenance expenses for one month;*

*(v) Maintenance spares @ 20% of operation and maintenance expenses; and*

*(vi) Receivables equivalent to two months of capacity charges and energy charges for sale of electricity calculated on the **target availability**.*

*(b) The cost of fuel in cases covered under sub-clauses (i) and (ii) of clause (a) of this regulation shall be based on the landed cost*

*(Signature)*

*(Signature)*

*(Signature)*

Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14th Floor, Shakti Bhawan Extn.  
Lucknow-226001

*incurred (taking into account normative transit and handling losses) by the generating company and gross calorific value of the fuel (on 'as received basis' as defined by the Central Electricity Regulatory Commission) for the three months preceding the first month of the period for which tariff is to be determined and no fuel price escalation shall be provided during the tariff period.*

-----”

27. Further, Hon'ble Commission has issued Order on dated 11.01.2023 against the review Petition filed by Rosa Power Supply Company Limited in Petition No. 1849 & 1851 of 2022 in the matter of Review Petition under Section 94(1)(f) of the Electricity Act 2003, seeking review of the order dated 25.02.2022 passed in Petition No. 1529 of 2019 by Hon'ble Commission.
28. In the said order Commission has worked out Interest on working capital based on normative basis. The relevant extract of the order is reproduced below:

*“21. The Commission has perused the records and finds that the actual PLF of the Plant is in the range of 42% to 83% as below:*

.....

*22. The coal and fuel oil cost captured from the audited accounts for the purpose of Working Capital pertains to actual PLF and not the normative one @85%. There has been an inadvertent error that the cost of coal and fuel oil*

  
Chief Engineer (Commercial)  
U.P.R.V.U.N.L. 14th Floor, Shakti Bhawan Extn.  
Lucknow-226001

has been considered at lower PLF instead of 85% PLF/availability on normative basis.

23.....

24.....

25. Therefore, the Commission, in this Order, has revised the values of coal and secondary fuel oil, as above @ normative availability /PLF as per Regulations, 2014, for the purpose of IOWC, receivables and fixed charges”

29. In view of the provisions of the Tariff Regulations, the Petitioner request to the Hon’ble Commission may allow the Interest on Working Capital based on the Normative approach for the control period.

It is most respectfully prayed that the Hon’ble Commission may decide the present MYT petition based on the all the submissions made so far. The Hon’ble Commission is requested to permit the applicant to add /change /modify / alter this rejoinder and make further submissions as may be required at later stages. The Hon’ble Commission is requested to Pass such orders as Hon’ble Commission may deem fit and proper and necessary in the facts and circumstances of the case, to grant relief to the Petitioner.
